CHERRY RED NEWS

"Careful with that box", a voice screamed from the stage. There was total chaos all around, equipment, cables and roadies everywhere.

Midnight. The hall is empty and cold. The Mercedes trucks wait outside loaded and ready for the off. We exchange farewells and stickers with the Hawklords, the Mercedes lit up and roared with power. That was it, silence and emptiness as Hawkwind disappeared into the night.

Yes, Hawkwind; the best band we have had at Malvern since the last time they came in September 1973. If you are wondering what happened to STACIA: well she twisted her ankle and had to miss quite a few gigs. Ours being one of them.

Don't forget to keep an eye open for Michael Moorcock's "DEEP FIX". They will be releasing a single and an album to coincide with a tour shortly.

Anyway, looking ahead we have "WALLY" on April 10th. You may remember WALLY supported LINDISFARNE back in October. They proved such a fine band that we thought they should return to Malvern as a main band. WALLY, as you probably know are managed and produced by whispering Bob Harris and Rick Wakeman.

May 1st should prove to be a good evening as we have "ACE" for you. They have a really nice single out at the moment called "I Ain't Gonna Stand For This No More".

We have seen some of the bigger name bands in town over the last couple of months, and had to pay for them as well. So we thought it would be nice to have a couple of "cheapo" evenings, before we bring in some more big names. One such name could well be the "AVERAGE WHITE BAND". At present they are in America and it isn't known if they will be doing a British Tour. If they do, you can be sure they will be playing the 'Gardens'. See you all at WALLY.

Love CHERRY RED.
