The supporting act for tonight is a local band from Hereford called "COLD WATER" LADY", who by all accounts are very good. Anyhow we thought we would refresh our memories and recall some of the bands we have had over the last few years. The list is by no means complete as we haven't included alot of the support bands. Perhaps you can think of some we haven't listed? The figures at the side denote the number of times the band has been to Malvern.
