NEWS

Well, we did warn you that they would be loud, heavy and rock, and they certainly did. "Budgie" fine rousing stuff. The support band Demons, who are a Brighton based band changed their name to "Sleepers" that night. It was a great pity they had to cut short their set, as they were bloody good! No doubt we shall see both bands back at the Gardens again.

As you can see, we have a really fastey gig next. Argent plus Big Front Yard. Argent will be performing "Circus" from their current album Circus.

Yeh, you heard right, Big Front Yard. Their line-up has recently changed, Min the drummer, moved away to Liverpool, replacing him, and rather a scoop for B.F.Y. is the widely respected Keith Baker, ex Uriah Heep.

The band has so impressed Michael Gray (the rock journalist who lives in West Malvern, writes in Let It Rock and Melody Maker & wrote the book "Song and Dance Man/ The Art Of Bob Dylan") that he's formed a Midlands-based independant record company, RAMPANT RECORDS, - run in conjunction with Sue Tyrrell to record and release BIG FRONT YARD'S music.

The band's first single is "MONEY-GO-ROUND" c/w "MAD JOHN'S DREAM", and it is released on Friday June 20th. This record will be on sale throughout the Midlands. Locally, it will be on sale at Malvern Music, Counterpoint, and Preedys in Worcester. If the single does well - as it should, an album will follow in September. We've heard the single, and take it from us, its good.

So July 12th promises to be something else, don't be late as we have a big show that night.

Lots of Love, Cherry Red
