CHERRY RED NEWS

Hallo folks. How about THIN LIZZY then; what a fantastic band they are, all told quite an evening, you coping for some free records and all. Anyway we shall be hearing LIZZY back at the Gardens in the not to distant future.

We're sorry LIZZY did'nt do a second encore, we did ask them but no go unfortunatly. They went on stage fairly early but they did play for an hour and a quarter.

Over the last 7 months, I think you'll agree, we have had some really fine support bands and LIZZY night was no exception. STAGHORNE kept this reputation alive by playing a trully fine set. If you do have the opportunity to see them again, in Malvern, don't miss it cos they'm good.

Anyway it'll soon be EASTMAS and to celebrate this occasion we have the original CURVED AIR. They appear at the Gardens on Thursday 27th March. Some of you may remember the magnificent set they played for us some two years ago. An interesting point to note is we have managed to peg the price to what you payed over two years ago. Not bad eh.

We would like to thank you all for coming tonight, as we know quite alot of you have travelled one hell of a way. Still HAWKWIND are well worth it. Apart from being our favourite band, they're some of the nicest people you could ever wish to meet.

By the way, be on the lookout for forged tickets. Remember only buy from our usual ticket agents.

A safe journey home to you all, no matter how far you have travelled.

See you at CURVED AIR. - Love CHERRY RED.
