Cherry Red *present*

Was it really ten light years since they had blasted off from the sacred lake at Abydos?

"Nik!NIK" a voice came hazily through his mental fog. A red light was strobing in front of him. He stared uncomprehendingly at the light, as it became larger and turned into a bleeding heart and then slowly melted and dissolved into a stage, perfectly smooth, stretching away in all directions to infinity. He saw rows of gleaming expectant faces and the musical orbs. Strangely familiar red lights blinked over them. He put his hand out towards the light and to his amazement found a flute in it.

Lost am i in this world
Of timelessness and woe
Can i find the doorway
Through which i must go
Is the key to this plane
Too much for me to try again
Is the passport to this
World my astral soul.

In the last News Letter we said we would tell you something about ticket prices and the like. Well another promoter was going to bring the Fatback Band to Malvern and charge £2.00 a ticket. As you know this was scrapped and at that price i'm sure no one was dissatisfied. You may recall we had HAWKWIND in February 1975. Just over 12 months later they came back again, only this time they had changed agents and they were almost twice the price they were in February 1975. The cost of putting a band on the road is out of this world, and it gets worse month by month. Anyway that's something out of our control. Plans now look set for GENTLY GIANT on May 8th, which is a Saturday. Don't forget our new address, all correspondence to:- 3, ADELAIDE HOUSE, 21, WELLS ROAD, GREAT MALVERN. See Yer.
