# NEWS

HELLO,

What a pleasant change to see two really good bands enjoying their sets, especially the PRETTY THINGS, take it from us the Pretties will be

back in town again shortly. So what next? Well turn over and find out.

Yes we have the wonderous KEVIN AYERS for our 5th anniversary on Saturday 3rd July. Supporting Kevin will be FAST BUCK, who we just had to bring back after their superb set with the Pretty Things. That should delight a certain young lady who was at that gig. During the intermission on 3rd i shall be playing some tasty sounds from bands like, BLUE OYSTER CULT, KISS, EAGLES, QUICK SILVER MESSENGER SERVICE, DOORS, VELVET UNDERGROUND, LYNRYD SKYNYRD and other American bands.

July 30th which is a Friday sees the return of THE HEAVY METAL KIDS. Supporting them is a Welsh band by the name of LONE STAR. Now for those of you not in the know, let us tell you now that you're in for one hell of a treat. LONE STAR are simply fantastic. In our opinion they are going to be the biggest band ever to come out of this country. Having only recently been formed they don't have any records out yet, but there is an album due out in August on C.B.S. To give you some idea of their potential they were signed to C.B.S. for a record advance of over  $\frac{1}{4}$  million pounds. Now for a new band to command that sort of money they have to be good. Anyway come and see them for yourselves, it's the chance of a life time, if you turn it down you will regret it later on.
