Well you're a loud mouth baby, you better shut it up i'm gonna beat you up!

ELLO PUNKS, We bin lookin forward to this gig for a long time now, and as they said in last weeks SOUNDS, "The HOT RODS are undoubtedly the hardest rocking combo in the kingdom. If all goes to plan, the band will be opening the Winter Gardens new bar extension tonight.

Right then, tickets for THIN LIZZY are now available from our usual agencies and also at the box office tonight. We advise you to purchase well in advance as the gig will probably sell out in advance, if it doesn't remember it's an extra 50p for tickets on the door. The same applies to BARCLAY JAMES, tickets will be on sale in about a weeks time. We're sorry the two gigs are so close together, only it's a question of fitting dates in with the bands and the Gardens, which is not easy. CARAVAN are scheduled for Friday 26th November and STREETWALKERS for Thursday 23rd December. Hopefully we might have LONE STAR for the new year although nothing is finalised at present.

Incidentally, we shall be selling off a load of our old posters for next to nothing at THIN LIZZY AND BARCLAY JAMES, so bring some more bread with you and leave with lots of GOODIES.

Oh yeh, MALVERN MUSIC are moving to:- 19, ABBEY ROAD, MALVERN. as from Monday 4th October. Their telephone number remains the same, MALVERN 5567. Tonights support band are called, "POVERTY CORNER". and come from Bromyard. We have no idea what the band are like so we're all in for a surprise. There's a new band in Malvern called, "LIQUID LAUGH" who could well be Malverns first Punk Rock outfit. Anyway, they along with a band from Ledbury play the Foley on Saturday 2nd October. We shall be going along to check them out, why dont you?

If you're into tonights scene, you might like to check out some more PUNK bands, (thats if you haven't already done so)!

A new and exciting experiment in human audio-visual intercommunicative receptivity via the arrangement of air-wave patterns, generated by the use of generally acoustical amplification chambers ( incorporating chromatically and intrinsically variable strings extruded laterally ) in conjunction with the larynx of the homo-sapien, takes place each Tuesday at the Nags Head, Link Top, Malvern.

In other words come along to the opening night of the PHOENIX MUSIC CLUB on Tues. 28th. September.
