EVERYBODY WILL BE FAMOUS FOR 15 MINUTES IN THEIR LIFE!

It's 1.40 a.m. Wednesday 11th January 1978 and we've just got back from seeing Sham 69 at Barbs. I'm not gonna bore you with the details cos for one thing the people that started the aggravation don't deserve any publicity. Basically the gig turned into a riot the moment the Shams set foot on stage. We've experienced violence before at Barbs but nothing like tonight. Jimmy Pursey almost crying with pain said he'd come to play and nothing would get rid of him. Well they did get to play after a lot of trouble and thank gawd they did. The Shams won the respect and admiration from everyone there, hopefully they will return to Barbs (but i for one wouldn't blame them if they didn't.) If you get the chance go and see um and find out for yourselves.

This is beginning to read like a captains log cos it's now the end of January. We did say last year that these handouts were gonna be expanded into several pages of letters, ads & gig lists Etc. Well with one thing & another we just aint ad da time. For those of you that don't live locally we're in the process of starting our own record label, and thats where all our spare time has gone. We hope to sign up TIGHTS, (formally Skerj & Jerks) and get them into the studio very soon.

Talking of records did you know that Island are no longer? I think I'm right in saying that they were bought by E.M.I. and W.E.A. Anyway Island records are now just a label name.

Oh yeh, it seems some people think that Gooses Record shop in Worcester is run or owned by Cherry Red. That shop is nothing what so ever to do wif us. The only connection is Will's bit of fluff works there. If we owned a record shop i can assure you it would be completely different to Gooses or any other vinyl shop round here.

Apparently there are still some people that don't know that da Ramones gig in March has now been cancelled. Da boys are staying at home in the hope that they will break big over in the States. In a way it was just as well they didn't do a date here in December cos we went to see um at Brum and they weren't too hot. They had a really bad P.A. and they made quite a few mistakes. Judging by the reviews and what we saw it appears they didn't want to come over to this country in the first place. They openly admitted they couldn't give a wotsit and couldn't wait to get back to America. Having sampled life over there i don't blame them one bit. Although we have The Vendettas on the tickets as support, at this point in time i don't know whether we've got to have John Cooper Clark or not. Anyone livin in or Around Malvern knows by now that the VENDETTAS have become a legend in their own time. In a way i hope they don't play, cos up tonow they have only done, what is regarded as an EPIC three minute set. Hardly nobody knows what sort of stuff they do and what to expect from them, which i think is great.

Whens A.J. gonna get round to putting on TIGHTS, THE VENDETTAS & STRUMPETS. Those are all local outfits, (the later being a four piece female.) Was that really you Andy, we saw liggig in the Golden Kitchen the other night? Better give HEALTH WARNING a name check cos they think we're only into Punk bands, thats not true. In fact We're all going to see the Canadian heavy metal band Rush tomorrow night at Brum, and believe me we wouldn't be going unless we were into that, cos the tickets are £3.00 each. Anyway if da Motors don't have a tour support Health Warning will be doin that one.

Tickets for Elvis Costello will be on sale early March. Anybody got any thoughts on either Steve Hillage or Kraftwerk for May?
