Action - Time - Vision

Those of you who live locally and buy records should beware of being well and truly ripped off! There is a shop in Worcester that is charging £1.95 for Ed Bangers 'Kinnel Tommy.' As the single is on the Rabid label the shop reckons he will be signed to EMI and will become another Jilted John. Strange how the people at Bubbles are doing that single for only 55p in it!

The worst piece of exploitation occurs at a record shop in Malvern where they offer a whole £1 off an album, sounds good eh? The only thing is they display inflated recommended retail prices, so instead of an RRP of £4.39 they display an inflated price of say £4.99 then boldly announce a £1.00 discount off this album, so in fact you are only getting a discount of 40p!! Clever stuff eh? The public aint to know the correct RRP are they! If you buy records in Malvern go to the proper place, Malvern Music offer 10% off all LPs and it really is 10% off. If you're into New Wave, Reggae or specialist stuff then try Bubbles where you're bound to get a fair deal.

O.K. I'm sure you all know the second release on our very own Cherry Red label was the Tights double A side Howard Hughes and China's Eternal. That single is now available on Cassette, at the same price as the record. I think we are ^{the} first record company to issue a single on cassette. It's the same price as the disc and runs for the same duration. There are no long gaps on the tape, as you might think. We have only had 500 made, so that makes it a bit collectable I suppose.

Our first album will be released late November if all goes well. It's Morgan Fishers' 'The Sleeper Awakes'. As you know Morgan was in Mott the Hoople and is now in the British Lions. The rest of the guys on the Album are also from various well known bands.

Apart from that we have other interesting things in the pipe line which we will tell you about later. If any of you have any friends in Germany that are well informed on obscure electronic bands, similar to NEU, MICHAEL ROTHER, DUSSELDORF, etc., or you know of any, we'd like to hear from you, as we're really interested in releasing them over here.

Our next gig is a week tonight when we have RADIO STARS, tickets are available tonight from Bubbles records at £1.50. Two weeks tonight it's the HAWKLORDS tickets for that also available tonight. November 15th is Siouxsie and the Banshees. That's a band we've wanted at the Gardens for ages and ages, unfortunately if we had put them on six months ago we'd probably have had about 20 people come to see um! We saw them at the Bankhouse about 18 months ago and they were superb (I've seen them a few times since, and I don't think they are as good now.) Still who am I to say, I'm Constantly being slagged off for not liking a band once they get well known.
