

# THE RETURN OF THE DAMNED.

Well, we certainly didn't expect to be here again before 23rd June, surprise, surprise, eh. We're really sorry about the short notice of tonight's gig but that's the way it's been happening of late. We ain't exactly had much luck with gigs since April, what with Lene Lovich, The Scorpions etc. then there was the Pop Group which we never booked in the first place, that was advertised in all the music papers. Anyway here we are now, we ain't ones for bitching but the Damned did play Cheltenham about a month ago with two other bands, admission was £2.00. Not only do we have the Damned tonight but also the Ruts for £1.75!!

Please don't think we have been concentrating all our efforts on our label and ignoring the Gardens gigs. It's just that we've had some bad luck plus the fact that there's been naff all about. We've also investigated the possibilities of opening up a regular local club in Malvern or Worcester to put on bands such as The Mekons, Gang of Four etc. The response from local publicans has been nothing short of ridiculous! A darts night a disco and the odd wedding reception is about all there minds are capable of. Anyway we have a couple of very strange venues that could be suitable, so no doubt we shall have something fixed up in the next couple of months.

Our next gig at the Gardens is Saturday June 23rd. when we have "ROCKPILE" featuring Dave Edmunds and Nick Lowe, support act is the Lew Lewis Band, advance tickets are £2.00 on sale tonight from Bubbles stall in the Bar.

Right then now on to the label, we have two new singles just released. From Heartbeat Records a 4 track E.P. from four Bristol bands called '4 Alternatives' featuring 'The Numbers', 'The X-Certs', 'Joe Public' and 'Zoom Club' and on our own label a single from 'The Hollywood Brats' entitled 'Then he kissed me' backed with 'Sick on You'. At the beginning of June we have new singles from Destroy all Monsters and Morgan Fisher. At the end of June an album by the 'RUNAWAYS' followed by a single. After that a follow up to Business Unusual in the form of two single compilation albums one British and one American. From Heartbeat during the summer there will be a new single from Glaxo Babies and a sampler album of 16 different Bristol bands, one of which being the Pop Group (I think). In fact there's quite a lot happening on the record front, needless to say we are constantly on the look out for new bands, so if you are in a band and reckon your interesting we wanna know. Apart from National distribution we also offer distribution in 4 major overseas countries.

Well done to ~~our~~ local heavy metal outfit MEDUSA for covering Worcester in Posters, it's illegal around here ya see, so the more people that do the same, the better.

Most derlict buildings up and down the country are covered in posters, but not round here eh?

There's a gig at Malvern Youth Centre on June 2nd (i think) featuring ~~ABUAM~~ ASSASIN, HORIZON, and THE STILTS, three local bands for 50p so go and check it out, o.k.

Right that's all i'm gonna naff now, see ya on 23rd June.

P.S. The Damned, first came to Malvern on March 26th 1977, remember!! Oh Boogie Nights!
